Important Billing Information ...

As you prepare for your procedure, we want to make sure you understand how you will be billed for the services you receive. At a minimum, you will receive three separate bills. The success of your procedure depends on a team effort by many dedicated professionals, including those in our Center. Because government and insurance rules do not permit us to bill or collect money for team member, each member must send you a separate bill and collect payment from you separately.

<u>Surgery Center's Bill:</u> You will get a bill from us for the facility fee. This fee is for the staff, supplies, equipment and medications we provide for your safe and successful experience here.

<u>Physician's Bill:</u> Since the physician performing your surgery is not an employee of the Center, he will bill you separately for his services. The physician's bill will be sent from the physician's office for performing the procedure.

Anesthesia Bill: The anesthesia you receive during your procedure will be provided by a certified registered nurse anesthetist and/or an anesthesiologist and you will be monitored throughout the procedure. Please call 970-224-2985 if you have questions regarding anesthesia.

Other Bills: Depending on several factors related to your procedure, you may receive services and additional bills which may include:

- <u>Laboratory Bill:</u> Which may include fees for blood or urine tests.
- Pathology Bill: Which may include testing of any tissue samples taken during the procedure – pathology results will be available from your physican's office 7-10 days after your procedure.

Our staff will do their very best to help you with questions and guide you to the proper sources of information. Please contact your insurance company in advance to verify network status, benefits and facility coverage. If you have any questions about this information, please contact us at (970)297-6435, (970)297-6454 or (970)297-6449. Thank you!
